SECRET AND FRATERNAL SOCIETIES OF SALT LAKE

Modern Woodmen of America.

One of the most enthusiastic meetings ever held in t. O. O. F. temple was that by Great Salt Lake Camp No. 16971 last Tuesday evening, when about fifty members congregated and the degree conferred on three candidates. The members of the degree team put the new candidates through in first-class style. After their initiation the new members made speeches, congratulating the officers and team on their efficiency in the work of the degree saying that although they had no previous knowledge of the degree they were satisfied that nothing had been missed. It is safe to say that not one of them was usappointed or had a dull moment in the evening.

hall in the I. O. O. F. building. Several motions for the good of the lodge were brought up and discussed. One of these was a folder, prepared and presented by the secretary, containing general information of the organization and the lodge, for the benefit of prospective members, giving the objects and aims of the order, membership rafes, dues and benefits. It also shows that the organization, with a steady growth, now has a guaranty fund of \$92,253.49, with 268 lodges in nearly every part of the United States with a total membership of 18,797. This folder is being printed in the English language in pocket edition.

One proposal for membership was presented and a committee appointed. The subject of most interest to the members was the reading and discussing of circular letters regarding the convention of the order which is to be held at Fresno California, in September. As delegate to represent Apollo Thorvald L. Larsen was elected, and as alternate Julius Hansen was elected imanimously.

At the funeral of the wife of Christian Peiersen, a respected brother, last Friday the members of Apollo expressed their sympathy by attending in a body.

you will find it clearly proved from the Post-Office Department's own reports, that it is totally unnecessary to put any additional tax on magazines and periodicals, and that a deficit of \$17,500,000 is not chargeable to the periodicals.

> * * * * * * * * "For instance, the Post-Office Department is charging \$13,821,100 of the cost of rural free delivery against the second-class mail. Now. rural free delivery was established as a matter of Government policy, and we believe in it, but it is not fair to charge one dollar of this expense against the magazines. It is undoubtedly of benefit to the daily newspapers, but the Department is trying to exempt them from an increase in rate. The magazines do not need or want once a day or twice a day deliveries on these rural routes.

> "Page 256, Postmaster's Report, 1908, says: "Franking privileges weighed 4,555,634 pounds. They certainly cost the average price of all mail in all ways. And Governmental matter for Departments other than the Post-Office weighed 18,644,010 pounds.'

> "This report says that if the matter was charged at postal rates it would yield a revenue as follows:

3,987,546,44 Government matter 16,362,131.95 Total credit due Department . . \$20,881,239.33 "And that awful deficit disappears.

"It is impossible that a business of over \$200,000,000 should not offer an opportunity for enormous savings. And a business like that of our great Postal Department, with endless ramifications, must offer endless opportunities.
